COMMENTS ON SPORTS

By Pete Fritchie

Washington, D. C. Two of the members of the age are Warren Spahn of the Milwaukee Braves and Stan Musial of the St. Louis Cardinals. Both are stars at approximately forty — and this every man about that age especially World War II veterans know these two players quit served in the services a quiet while.

Spahn has fashioned eleven 20 winning years. Only three pitchers have beaten that mark Young, Christy Mathewson and Walter Johnson. So it's pretty company Warren Spahn is in. In spite of all Spahn's efforts and both he and Lew Burdette pitched no hitters in the campaign — which contains only twelve the Pirates got off fast and won

Stan Musial is still pecking it handily.

Whoever wins the flag in the National this season, it is hoped that Stan The Man will have a good year. And, also, it would be good to see Spahn win at least twelve — maybe another twenty — and join the "300" club and notch his twelth 2-game winning season.

These two can't go on forever, of course, but as long as they're among the top in the game, at approximately age of forty, the fellows who think they're getting old, at 35, can take a new lease on life.

KNOW THE WEATHER

By E. H. Sims

Where does today's weather go tomorrow? Where was it yesterday?

Today's weather will probably be several hundred miles to the east tomorrow. This is not an entirely accurate picture of the movement of weather across the earth but it is a general truth.

Weather moves across the United States from west to east five to six hundred miles a day— on an average. Thus, the barometer reading height of the layer of gas overhead) in this area today will likely be 600 miles east tomorrow.

Likewise, the layer of gas above us today was probably about the same distance to the west , or northwest or southwest, yesterday. The moisture content, wind velocity and other factors change, but usually the weather overhead is recognizable when compared to yesterday — 600 miles westward.

An educated man can argue without losing his temper and without resorting to abusive adjectives.
